Stärke · Thickness · Spessore

Muster mit Werks Oberfläche (einmal geölt); leichte Nachbehandlung nach Verlegung notwendig (Verlegeoberfläche). Struktur und Farbunterschiede liegen in der Natur des Holzes; Muster stellen stets nur einen kleinen Teil einer einzelnen Diele dar und dienen zur ersten Orientierung. | Sample with a work surface (once oiled); slight post-treatment necessary after installation (installation surface). Structure and colour differences lie in the nature of the wood; samples only represent a small part of a single plank and are used for the initial orientation. | Campionatura con superficie di produzione (una sola mano d'olio); leggero post-trattamento necessario dopo la posa (seconda mano d'olio). Differenze di struttura e colore risiedono nella natura del legno; i campioni sono solamente una piccola parte dell'intera dogia e servono solo per un primo orientamento.
