BIOPHILIC

EN

OUR NEED FOR

Naturalness

Humans have an inner need for contact with nature. This is countered by the increasing amount of time we spend inside closed rooms. The consequences? Stress, exhaustion, and imbalance.

Forward-thinking interior design therefore focuses specifically on the materials used indoors - a concept known as biophilic design. Wood is among the top contenders for healthy building materials - as long as it's left in its natural state.

OUR SOLUTION:

Natural wood floors

— A genuine natural wood floor - entirely without varnish or surface coatings - brings nature back into our indoor spaces in a simple way.

The wood is sensory experienceable and its texture establishes numerous connections to nature. The smell of the natural wood surface creates a familiar atmosphere, turning any room into a true retreat.

ADVANTAGES OF A NATURAL WOOD FLOOR:

- Wood floors provide an honest and pure barefoot experience
- The room climate is naturally regulated
- Maintain instead of replace – wood has a self-healing property
- mafi uses plant-based oil that penetrates deep into the wood, protecting it from within

SIMPLY GOOD FOR US

Humans

— mafi natural wood floors have always been crafted according to the highest standards for healthy living. Added to this is the strong positive influence of wooden floors on rooms and human beings.

NATURAL SURFACE AGAINST MODERN HEALTH ISSUES:

- Reduces airborne asthma triggers
- Wood requires no chemical cleaning agents, only water and soap
- Positive olfactory impact
- Studies show up to 50% fewer bacteria on wood surfaces
- Enhances overall well-being
- Prevents illnesses caused by indoor toxins

COMPREHENSIVE INDOOR

Optimization

— The positive effects of natural wood floors on our well-being are diverse. Whether in the workplace, during our leisure time, or in our own homes, humans can benefit from the natural material of wood.

HOSPITALITY AND HEALTHCARE:

- Increased regenerative capacity in wellness areas
- Stimulates all senses and creates a relaxing atmosphere
- Enhanced recovery in hotel rooms
- Non-slip surface, even when wet, reduces liability issues

FOR OFFICE SPACES:

- Increased concentration ability
- Creates a positive work environment
- Sense of well being leads to increased motivation
- Enhanced efficiency
- Improved air quality for everyone, especially for asthmatics

TRANSPARENCY AND

Trust

Customers worldwide trust in our natural products. Part of this trust is based on transparency, our values, and independent certifications.
