PROFIT FROM THE PRESENTATION FORMS FOR ARCHITECTS
ON [MAFI.COM](https://mafi.com)

FREE | MULTIPLE LANGUAGES | MINIMUM EFFORT

mafi

■ our services

mafi regularly publishes completed projects online, in press releases and at events. With this, we offer the responsible Planners and Architects various presentations forms free of charge. The basic requirement for this is the availability of relevant object images.

YOUR OPTIONS OVERVIEW

I. BASIC ENTRY

You will get a basic entry in our list of architects including your contact data and logo.

II. MICRO-SITE

Building on from your basic entry, there is the option to add additional text information, a statement about mafi and up to three images.

III. OBJECT REPORT

Based on the relevant project images, we will create a reference for you and connect this to your micro-site. Thereafter, we will report extensively on the project and publish the report in the media and in our network.

IV. PINTEREST

The Pinterest social media platform is used as a diverse inspiration and research instrument. We will present your work with a portrait photo, a short statement and a project image within our profile.

IV. PRESENCE ON PINTEREST

"We chose mafi because their products are unique and innovative, which help bring spaces to life."

Jason Linde, Lifestyle Studio Design Director at Gensler New York

■ how it works

We will create the above mentioned entries for free and in multiple languages. Thereafter, we will distribute these across various communication channels. We try to take up as little of your time as possible. To create your entries, we require however the following:

- Contact Data
- Logo as vector graphic
- Portrait image of the managing architect
- Short statement why mafi was used
- Short text on your company
- Project images in high resolution, if available

We can also gladly take on the text creation for you. Once created, we will send you the result for approval.
